INSTITUTE OF ENGINEERING RWANDA (IER)

Office of the Executive Secretary / CEO

Kigali, 27th October, 2026

ANNOUNCEMENT

Subject: Publication of the List of Elected Members of the College of Representatives for the 2026-2029

Dear Members,

The Institute of Engineering Rwanda (IER) is pleased to announce the list of members elected to the College of Representatives, established pursuant to Article 7, Section 3 of the Institute's Internal Rules and Regulations.

The College was established to ensure that ordinary meetings of the General Assembly can reliably meet the required quorum. In the past, insufficient attendance led to repeated postponements and delayed decisions essential to the Institute's governance and operations. Each membership category is now represented by members who are responsible for attending the Assembly.

We wish to emphasise that the College of Representatives does not restrict participation in the General Assembly. Every member in good standing remains welcome and encouraged to attend the AGA. The College simply guarantees that the Assembly can always convene with the required representation, while preserving the open and inclusive character of the Institute.

We congratulate representatives and thank all members for their continued commitment to the Institute.

Yours sincerely,

IER
Advancing Engineering, Shaping the Future

Mr. Steven SABITI
Executive Secretary / Chief Executive Officer
Institute of Engineering Rwanda

COLLEGE OF REPRESENTATIVES

1. Introduction

The College of Representatives was established pursuant to Article 7, Section 3 of the Internal Rules and Regulations to address a challenge the Institute has faced in the past. On several occasions, ordinary meetings of the General Assembly could not proceed because the required quorum was not reached. This led to repeated postponements and delayed decisions essential to the Institute's governance and operations.

The College addresses this by ensuring that every membership category is represented by a defined number of elected members who are responsible for attending. This allows quorum to be reliably achieved and meetings to be organised more efficiently. Following the elections held for the designated categories, this document presents the elected representatives expected to attend the forthcoming Annual General Assembly (AGA). Their attendance is essential to meet the quorum requirements and to allow the Assembly to proceed in accordance with the Institute's governing rules and regulations.

It should be emphasised that the College of Representatives does not restrict participation in the General Assembly. Any member of the Institute in good standing who wishes to attend the AGA remains welcome to do so. The College simply guarantees that the Assembly can always convene with the required representation, while preserving the open and inclusive character of the Institute.
